# Community Building

Creating communities around your product. Collect relevant people from your Target Audience. You own your own audience. A perfect way to monetize them for a longer period of time.

02

WHATSAPP

03

# Building WhatsApp.

We built 100+ WhatsApp groups at capacity, for us and for our clients. *within weeks.*

# Building Facebook.

We made several **Facebook** groups for different niches so that our clients can have laser targeted audience.

Use this community for brand awareness, social proof and promotion of your product/service.

05

# Grow Your brand by building Communities.

And many other community  
based platforms.
